

CHECKR CUSTOMER STORY

How a Staffing Company Achieves High-Velocity Hiring with Minimal Time and Overhead

TalentBurst is an award-winning provider of Total Talent Management Solutions including EOR, AOR, High Hazard Payroll, Global Payroll and IT & Engineering staffing. A certified Minority Business Enterprise (MBE) with offices in Boston, San Francisco, Miami, Toronto and Gurgaon, India, TalentBurst Global Talent Cloud solutions and Staff Augmentation solutions are consistently top ranked in technology, engineering, professional services, scientific and healthcare staffing needs.

“We’re able to hire larger workforces with less manual intervention, which means lower overhead costs and a better experience for my employees, who are not having to work longer hours, be on the phone more, or respond to more emails.”

Brad Talwar
Co-Founder and CEO, TalentBurst

TalentBurst’s Favorite Features

- Accurately comply with complex federal, state, and local regulations
- Integrates into technology stack enabling 99% automated onboarding
- User-friendly, intuitive platform that is quick to train on
- Responsive support team
- Automatic updates and notifications sent directly to candidates
- Checkr platform saves and transfers candidate information, eliminating redundant input
- Checkr encourages self-service with ETA’s automatic notifications
- Candidates can receive requests and send documents directly to Checkr.

The TalentBurst - Checkr Story

In high-velocity hiring, TalentBurst sets itself apart by creating exceptional candidate experiences. Candidates are empowered with Checkr's easy-to-use platform that automates most processes.

They are staying engaged with TalentBurst despite a highly competitive market. With Checkr's automated alerts, candidates receive requests for documents and status updates immediately. They also send requested documents directly to Checkr. This means TalentBurst employees spend far fewer hours fielding emails and calls, and candidate communications are streamlined and kept private. Several times, Checkr alerts have allowed a TalentBurst candidate to receive clearance after hours and begin work the next morning.

Checkr integrates with TalentBurst's onboarding, payment processing, vendor management, and payroll. This helps TalentBurst successfully support even its largest volume customers. In terms of speed, Checkr has reduced their background

check turnaround time from 5-7 days down to as little as 30 seconds, and candidate onboarding is down from 3 days to less than 5 minutes, with start to finish self-service. requirements at the federal, state, and local levels.

“Prior to Checkr, we had semi-disjointed technology stacks, running background checks outside of onboarding and new-hire processes. Checkr created this wonderful front-to-back technology stack which is fully integrated.”

Brad Talwar
Co-Founder and CEO, TalentBurst
