Full Funnel Hiring With Checkr and Eightfold AI

Eightfold and Checkr allow organizations to make data-backed decisions around recruitment and hiring. The Eightfold + Checkr partnership enables companies to hire based on qualifications, key attributes, skills, and traits - all in one view.

Unified Platform
Recruiters who utilize deep data intelligence from Eightfold and Checkr are able to source, assess, and initiate background screens through one unified platform. Hiring managers can deliver a seamless candidate and recruiter experience and through the integration increase hiring efficiency.

Embedded DEI
Build a more diverse workforce and reduce human bias in hiring with end to end DEI and Fair Chance Hiring AI embedded into the platform. Make adjustments to expand your talent pool to underrepresented candidate groups and run only the required backgrounds to promote diversity.

Talent Rediscovery
Optimize the top and bottom of the talent funnel by uncovering hidden candidate pools with purpose-built talent data and analytics. Use talent data and insights to decrease hiring costs and reduce the time to fill jobs, in turn increasing candidate quality and conversion.

Internal Mobility & Ongoing Trust and Safety
Increase internal mobility and reduce employee attrition by evaluating employee skills and experience through data driven job matching. Use continuous screening to ensure the trust and safety of all your customers.

AI Technology
“Hiring a diverse workforce is not only the right thing to do, it also expands your talent pipeline to the underrepresented candidate groups. As a Talent Intelligence Platform, it’s more important than ever to meet our customers where they are conducting their day-to-day workflow. Adding Checkr to Eightfold, not only optimizes full-funnel recruiting, but it also enhances the value of the investment that customers have made in the platform.”
